Portfolio: [Portfolio](#)

Eager full stack developer committed to ongoing learning and mastering cutting-edge technologies. Proactively tackles challenges, constantly seeking growth opportunities to expand skills and knowledge base.

---

## WORK EXPERIENCE

### Professional Development

3/2024 – Present

- Learned Redux and Redux Toolkit for advanced state management in React applications.
- Acquired proficiency in React Query for efficient data caching and synchronization.
- Mastered ReactJS, including hooks, custom hooks, form validation, React Context API, and API data fetching, applying these skills across multiple projects.

### Full Stack Developer | White Stork | Beirut, Lebanon

6/2023 – 2/2024

- Collaborated within a team to customize NocoDB's open-source code, developing solutions that aligned with business rules, while utilizing VueJs, NestJs, and NocoDB.
- Participated with a team to enhance an existing project by adding new features and updating functionalities, applying domain-driven design principles in response to customer requirements.
- Refactored legacy code with complex raw SQL queries into NestJs and TypeScript, adhering to clean code principles.
- Optimized the database schema by adding indexing, fixing foreign keys, and using TypeORM relations, reducing query execution time by 40%, eliminating complex joins, and improving performance.

### FSW Bootcamp - Internship | SE Factory | Beirut, Lebanon

8/2022 – 12/2022

- Intensive full stack web development program covering cloud architecture, front and back-end development, source control, and web application security over 14 weeks of lectures, workshops and projects.
- Developed a home automation web application utilizing IoT technology to remotely control internet-connected electronic devices at home, with ReactJs for the frontend and Laravel for the backend.

### Foundations of Computer Science Program | SE Factory | Beirut, Lebanon

7/2022 – 8/2022

- Intensive foundation of computer science program covering foundational concepts of Computer Science using Python, complexity analysis, data structures, algorithms over 4 weeks of lectures.

---

## LANGUAGES

English (Fluent), Arabic (Native)

---

## EDUCATION

### Bachelor of Computer Science | Lebanese International University | Rayak, Lebanon

2019 – 2022

- Implemented a responsive social networking Web Application aimed at enhancing interpersonal communication, featuring real-time messenger functionality, with HTML, CSS, and Bootstrap for the frontend and Laravel for the backend.
- GPA: 3.47

---

## SKILLS

- Backend: NestJs, TypeORM, Laravel, Postgres, MySql, NoSQL, MongoDB
- Frontend: ReactJs, Redux, Redux Toolkit, React Query / TanStack Query, NextJs, VueJs
- Programming Languages: TypeScript, JavaScript, Python, Java, PHP, C++
- Soft Skills: Self Learner, Teamwork, Time Management, Lifelong Learner, Communication

---

## CERTIFICATES

- React Query | TanStack Query: Server State Management in React (Udemy)

9/2024
